ABOUT US

Synchronicity, the word may suggest a certain mastery of an architectural masterpiece, but they fit together by themselves; isn't music a series of synchronicities....

Late 2022, under the impetus of Swiss guitarist, composer and arranger Eugene Montenero and the Swiss drummer and composer Cédric JeanRichard, the desire to synchronize and cross their destinies was born...

The band evolving in the pure acid jazz style which comes from the British music scene of the late 80s, subtly combining jazz, funk, R&B and soul music.

The career paths of each and every one of them make you shudder....some names that evoke prestigious collaborations such as: Billy Cobham, Robben Ford, Dominique Di Piazza, Ray Charles, Milène Farmer, ElectroDeluxe, Jean Marie Ecay, Petula Clark, Jimmy Sommerville, Stars 80, La Compagnie Creole, Gloria Gaynor, AFRICAN PROJECT, Simply Red, Zouk Machine, Dany Brillant, Johnny Hallyday, Eddy Mitchel, Milène Farmer, Alpha Blondy, Ray Charles, John Scofield, Gil Evans, Michel Petrucciani, Claude Nougaro, Al Jarreau & many more...
